

# PROCOM HEADSETS

## PRE-SEASON CHECKLIST

**Reminder: The main headset unit must be turned on in order for your system to operate.**

- Make sure all batteries are fully charged
- Take out each headset and power them on
- Make sure LCD screens are all working
- Put all units on the same channel and test that each unit can hear & talk. \*
- Test LoudMouth if applicable. *Be sure to be on the Sideline channel when testing.*
- Test XMR helmet receiver(s) if applicable. *Note that not all units are typically programmed to talk to the receiver.*
- Clean all units and make sure they are moisture free
- Test your HS-45 headsets: Gently wiggle the cable while testing to ensure your communication is uninterrupted
- Cycle through all channels to make sure all are operating

**\* If you have more than 12 units, you will need to flip the mics up in order to test all of the units.**
